

[All Products](#) / [Lasers](#) / [Laser Mechanics](#)

Metric Spatial Filters

- X-Y Micrometer Translation
- Gimbal Tilt Control for Fiber Alignment
- Z-Axis Translation for Objective Mount

Common Specifications

Physical & Mechanical Properties

Construction:	Black Anodized Aluminum	Linear Travel Resolution (μm):	2.5 (XY)
Base Tilt Angle (°):	±2		

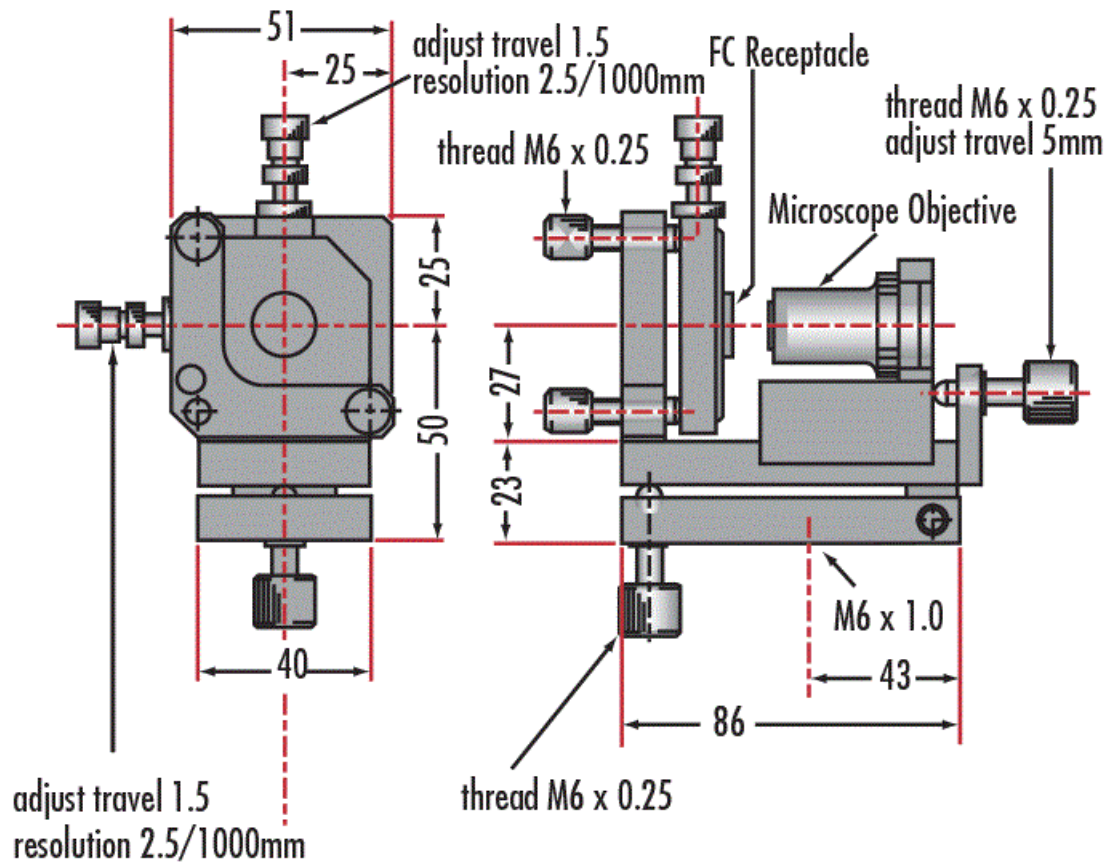

Hardware & Interface Connectivity

Type of Drive:	Differential Micrometer (XY)
----------------	------------------------------

Threading & Mounting

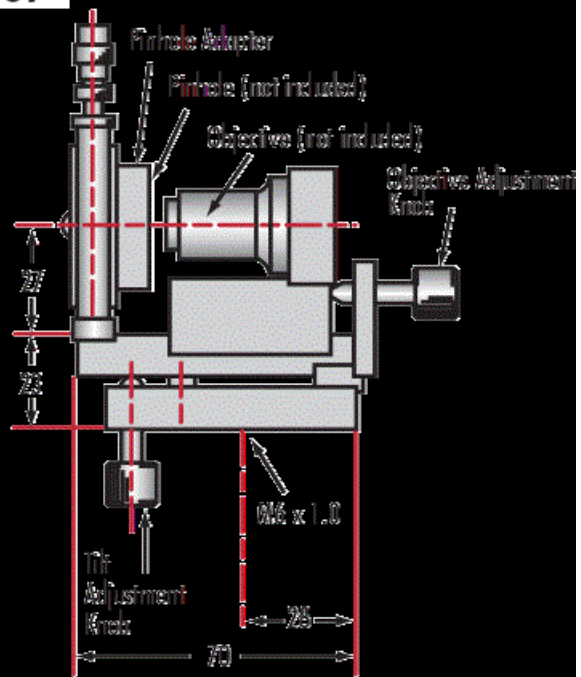

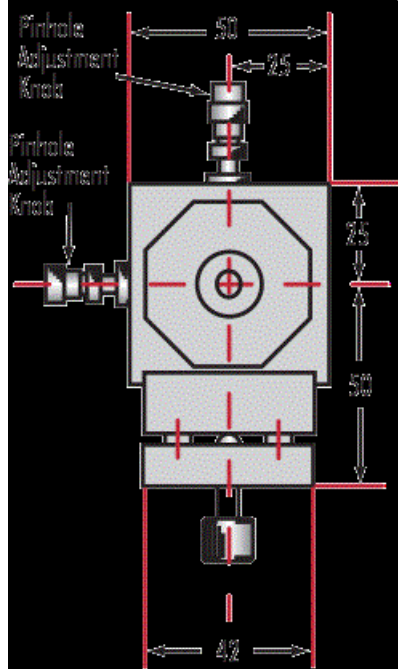

Compatible Post:	M6 x 1.0
------------------	----------

Technical Information

#55-475 (Units: mm)

#57-739
