## Fluorescent Glass Filters

- Excite with UV Illumination
- Wide Range of Fluorescence Colors
- High Sensitivity and Durability

### Common Specifications

#### Physical & Mechanical Properties

|                 |            |
|-----------------|------------|
| Thickness (mm): | 3.00 ±0.10 |
|-----------------|------------|

#### Optical Properties

|          |          |
|----------|----------|
| Coating: | Uncoated |
|----------|----------|

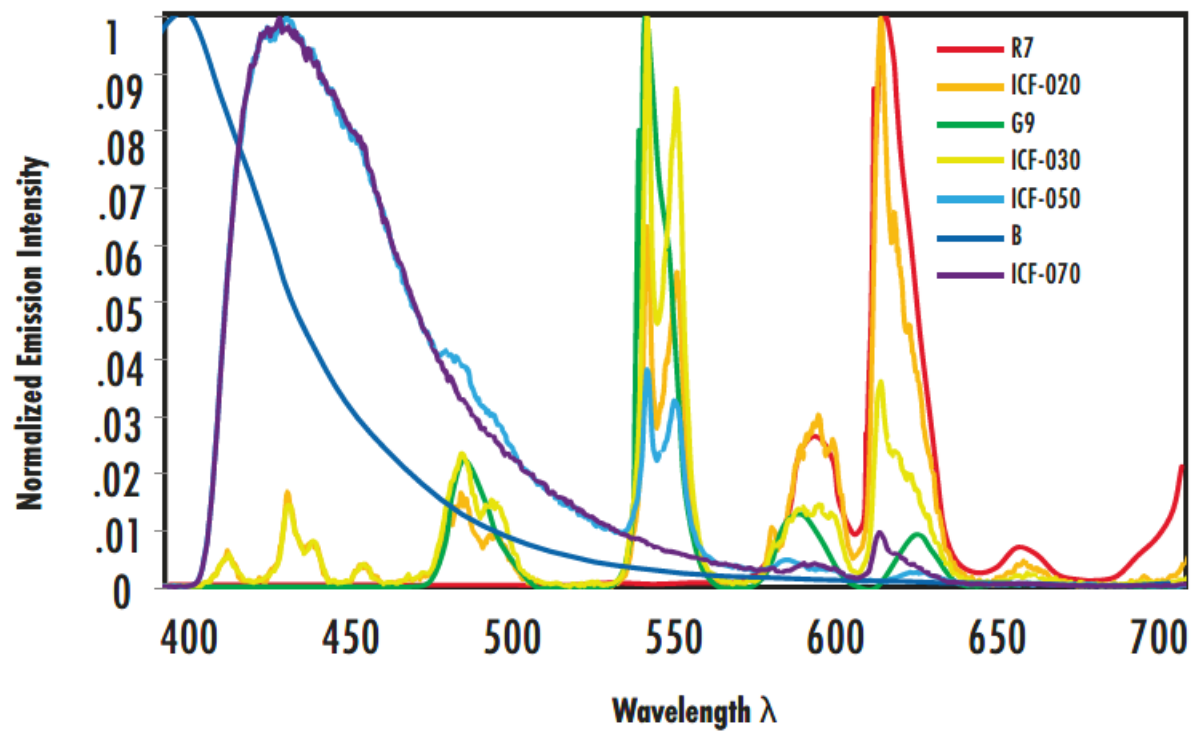

|                                  |        |
|----------------------------------|--------|
| Peak Excitation Wavelength (nm): | 365.00 |
|----------------------------------|--------|

#### Performance

|                      |                      |
|----------------------|----------------------|
| Minimum Sensitivity: | ~1μW/cm <sup>2</sup> |
