Product Details

- Long Working Distances Allow for Integration into Machine Vision Measurement Systems
- Small Size with Excellent Performance
- Long Working Distances
- Easily Integrates with C-Mount Cameras

The Mtutoyo Compact Objectives are ideal replacements to commercial and biological grade microscope objectives. An optimized compromise between physical size, numerical aperture, and working distance leads to diffraction

limited performance at a fraction of the size and cost of their [infinity-corrected](#) counterparts. These objectives are easily integrated into C-Mount imaging systems with our Mitutoyo C-Mount Camera Tube [#56-992](#). Higher powers are available in a larger package design, please contact our [Applications Engineering Department](#) for more information.
