PRODUCT DETAILS

- Height Ranges up to 24"
- Easyto Read and Use Digital Control
- Linear Encoder Maintains Position without Reference

Mitutoyo Height Gauges are designed with a 1-dimensional vertical track for measuring object height with measurement ranges up to 24" and digital step sizes of 0.0005". Featuring an ABSOLUTE® linear encoder, these height gauges do not require setting a reference point at every power-on. Additionally, the encoder prevents over speed errors from occurring which improves measurement reliability and repeatability. Mitutoyo Height Gauges have an easy-to-read digital display and a large smooth slider feed wheel for ease of use in any application. A rigid column structure and long battery life of 5 years under normal use ensures long-lasting durability, even under rigorous working conditions.
