## Product Details

- Designed to Refill Lab Consumables
- Tools, Cleaning Supplies, and Mounting Equipment Included
- English and Metric Components

The Lab Essentials Kit contains many components that are typically consumed or lost in an optical lab over time. The kit consists of a variety of products including cleaning supplies, tools, and basic mounting components. The Lab Essentials Kit features both English and Metric components, making this kit universal and fulfilling the needs of most labs.

**Note:** [Lab Starter Kit](#) and [Component Storage Kit](#) are also available.
