The TECHSPEC® Multi-Element Tube System Kit provides an introductory platform for researchers, engineers, or educators to create optical assemblies for OEM, experimentation, or prototyping purposes. This kit contains an assortment of essential Multi-Element Tube System components, including single and pair optic mounts, outer tubes, spacer rings and tubes, aperture rings, and various accessories needed to construct a basic optical system. The TECHSPEC Multi-Element Tube System Kit includes optic mounts for common optical diameters of 12mm, 12.5mm, and 25mm. The included C-Mount thread adapters allow for compatibility between the systems created with this kit and a broad range of applications.
